### -REZUMAT-

„De ce este important Ion Frunzetti pentru arta vizuală românească?” este întrebarea la care această lucrare vrea să răspundă. Am adunat multe informații despre omul Ion Frunzetti, un reputat critic și istoric de artă, o personalitate complexă, de o vastă cultură, extrem de activ în critica de artă din România între 1937 și 1985. Dintre aceste informații am selectat, pentru această lucrare, pe cele care ne ajută să ne formăm o imagine unitară asupra personalității lui și a contribuției semnificative în arta vizuală românească, în domeniul criticii de artă, al istoriei artei și al patrimoniului cultural românesc.

În primul capitol, vom face o trecere în revistă a biografiei lui Ion Frunzetti, pentru a înțelege circumstanțele și condițiile care au favorizat formarea acestei personalități.

În al doilea capitol, vom aborda activitatea lui în domeniul artei vizuale românești, și anume activitatea de istoric, de critic și curator de artă vizuală.

În capitolele al treilea și al patrulea vom descrie aportul lui Ion Frunzetti la conservarea și promovarea patrimoniului cultural românesc și, de asemenea, activitatea de mentor pentru tinerele generații de critici și cercetători români.

Cercetările precedente făcute asupra activității lui Ion Frunzetti constau în: republicarea a patru volume, colecții de lucrări ale lui Ion Frunzetti: În căutarea tradiției, Scrieri Prietenii mei artiștii, volumele I și II; Studii critice și Disparate, de care s-a ocupat criticul de artă Florica Cruceru.

Nu avem cunoștință de existența până în prezent a unei lucrări care să aibă o privire holistică, unitară asupra vieții și activității lui Ion Frunzetti, realitate din păcate valabilă pentru multe personalități din lumea artei vizuale românești.

### -SUMMARY-

“Why is Ion Frunzetti important for the Romanian visual art?” is the main topic which is being tackled in this thesis. I have gathered information about the man Ion Frunzetti, a reputed critic and art historian, a complex personality, of extensive culture, extremely active in the criticism of art in Romania between the years of 1937 and 1985. Among these pieces of information, I have selected for this thesis the ones that help us form an unitary image about his personality and his significant contribution in the Romanian visual art, in art criticism, art’s history and the Romanian cultural heritage.

In the first chapter, we will be reviewing Ion Frunzetti’s biography, in order to understand the circumstances and the factors which led to the formation of this personality.

In the second chapter, we will be addressing his activity in the Romanian visual art domain, more specifically his activity as an historian, critic and visual art curator.

In the third and fourth chapters, we will be describing Ion Frunzetti’s contribution to the conservation and promotion of the Romanian cultural heritage and, also, his activity as a mentor for the young generation of romanian critics and researchers.

Previous research tackling Ion Frunzetti’s activity consisted in: republishing four volumes, collections of works belonging to Ion Frunzetti: În căutarea tradiției, Scrieri Prietenii mei artiștii, volumes I and II; Studii critice și Disparate, which was tackled by the critic Florica Cruceru.

We are not aware of the existence of a work that addresses the life and activities of Ion Frunzetti in a holistic, unitary way, a reality which is unfortunately valid for many other personalities belonging to the world of Romanian visual art.

## kavala fort

*Remains of a 15th century castle*

Kavala is the second largest city in northern Greece and principal seaport of eastern Macedonia. Kavala is across the strait and the northernmost island of Greece, Thassos. Access is easy from Kavala to Thessaloniki (Thessaloniki) by highway Egnatia Highway. The city was originally founded by settlers from Paros around the sixth century BC, who called it Neapolis (new town). Gold mines in the hills Pangaion made him prosperous. It became a Roman civitas in 168 BC and was a base for Brutus and Cassius in 42 BC, anointing their defeat at the Battle of Philippi. The Apostle Paul made a stop in Kavala on his first trip to Europe, and in the Byzantine period, the city was renamed Christoupolis.

Even if the infrastructure is not as developed as in other parts of Greece, Kavala no shortage of tourists, and even can be said that in summer their numbers increased dramatically, being attracted by the conditions offered, beautiful places - especially Greek villages where centuries-old traditions are enshrined - and affordable prices. Those who want a memorable vacation at low prices, but also those who want it, at a price to match, will find in Kavala however. For hiking enthusiasts, Mount Pagaio is a perfect target for hiking, and winter sports in the proper season.

Near Kavala, Philippi near the villages Krinides and more you can visit the archaeological site where they found ruins Macedonian Philippi, named after its founder - Philip II.
